30+
YEARS OF
EXPERTISE

1992
ESTABLISHED
IN THAILAND

Established in 1992, Central Premier Group Co., Ltd. has built its reputation as a specialist importer and distributor of premium-grade surface materials — porcelain tiles and decorative finishes conceived for both interior and exterior applications.

Over three decades, that commitment has shaped a rigorous operating philosophy: from curating products of distinctive design character, to quality held to international standards, to comprehensive post-sales support. Architects, interiors, contractors, and project owners are met with the same standard of care and precision at every stage.

Our Vision

Always evolving, always moving forward

Growing in harmony with the world — guided by purpose and driven by innovation — enriching the spatial potential of every project while upholding long-term sustainability.

Our Mission

Trusted by leading projects

To deliver surface materials of distinguished design quality, to invest in the capability of our people, and to conduct business with responsibility to society and the environment.

Core Values

- **Craftsmanship:** Considered in every detail, from selection to service.
- **Mindfulness:** We inspire and inform — we never hard-sell.
- **Long-term partnership:** The right product, at the right time, every time.

Experience the revolutionary ***In-Out Effect*** - a Smart-Surface innovation that adapts performance to environmental conditions. This cutting-edge technology ensures exceptional versatility for both interior and exterior applications.

When dry, the surface maintains an optimal R10 slip rating for comfortable indoor use, while transforming to an enhanced R11 rating when wet, providing superior safety and grip for outdoor environments. This adaptive performance eliminates the compromise between aesthetics and functionality, delivering a single solution that excels in any setting.

Each tile in the ARDEX Stone collection showcases carefully crafted surface textures and random face patterns, ensuring every installation achieves a unique, naturally varied appearance that mimics the authentic beauty of natural stone formations.
